MRS. THOS. H. COCHRAN

Passes Away at Her Home Thursday Morning.

The city was thrown into mourning and sadness pervaded every home when the news was spread last Thursday morning that Elvie Crider, wife of Thos. H. Cochran, was dead. She breathed her last at 2:30 o'clock Thursday morning, surrounded by husband, brother and loving friends who had done all love could suggest to save her life, but all to no avail.

Mrs. Cochran had been ill only the fewest number of days, only the week before her death she was well and out in the streets and went to the depot to bid her little son goodbye when he was leaving with his grandma for a few days stay in Evansville.

Her infant daughter born the day of her death, was placed in the coffin with her, it having died shortly after its birth.

The funeral was held at the Methodist church Friday afternoon at 2 o'clock and was conducted by the pastor, Rev. J. B. Adams, assisted by Revs. J. F. Price and Virgil Elgin, of Hartford, Ky. The music was an especial feature of the service the songs being favorites of the deceased and especially well rendered.

"Asleep in Jesus," "Looking this Way," "Nearer My God to Thee," were rendered interspersed with prayers and remarks by the ministers, which were exceedingly beautiful and appropriate.

The floral offerings were especially profuse and comprised many beautiful designs, formed of sweet and beautiful flowers of many kinds.

The pallbearers were the stewards of the church:—Messrs. J. A. Moore, R. I. Nunn, J. W. Lamb, H. A. Haynes, C. E. Welson, J. N. Boston, T. A. Frazer and C. S. Nunn.

Notwithstanding the inclement weather the church was crowded to its full capacity and many ladies even going to the cemetery in the rain.

Mrs. Cochran was held in high esteem and was a much beloved woman.

Equity Meeting.

Marion Local, American Society of Equity, No. 4237, will meet in the Court Hall, at Marion, Ky., Feb. 8th, 1908, at 1 o'clock prompt.

All members should be present and settle their annual dues, and those that have given their names to become members, should settle their dues so you may receive the official paper.

A. F. WOLF, Pres.

By W. E. SMITH, Sec.

A Broom Factory.

One of the enterprises which will soon be put on foot in the city is a broom factory to manufacture brooms from home grown corn. Mr. John M. Albridge raised several tons of broom corn and the factory will be installed in a suitable house near his residence on R. F. D. No. 1.

Farmers Meeting.

The National Farmers' Educational and Co-operative Union of America, met at Mexico, Ky., Jan. 30, 1908, for the purpose of organizing a county union. The school house being to small to accommodate the vast crowd, the church doors were very cordially thrown open to the union.

No less than 87 delegates were present from the various locals of the union.

The house was called to order by our most efficient State Org., R. L. Barnett.

Brilliant speeches were made by the members and friends of the union in favor of organization and took

the floor and explained the purpose of the union and the object of the present meeting.

The following officers were elected:—Rev. Bob Jonson, President; Bro. Will Brown, Vice-president; Bro. Guy Griffith, Secretary; Bro. Rob Thomas, Chaplin; Bro. Ralph Hodge, Doorkeeper; Bro. W. B. Binkley, Conductor; Bro. Edd Flanery, Business Agent; J. N. Towery, County Organizer.

Marion, Ky., was unanimously chosen for the place to hold the next county meeting.

R. L. Barnett then took the floor and delivered the closing speech which in point of eloquence, soundness and excellency will be remembered when he has long since passed over Jardon.

At the close he said in substance, "if any man here endorses any harm to person, peace or property we would like to know it, all who do not rise to your feet." The house arose simultaneously as one man.

The meeting then adjourned to meet in Marion, Feb. 29, 1908.

E. H. MOTT, Secretary.

Co-Operation of Equity Men.

Repton, Ky., Feb. 3.—Now that our State meeting is passed and its work a matter of history, it behoves every A. S. of E. member to get busy and help to make this the biggest year in the history of the organization for real progress and great achievement along every line of Equity work. Every official should resolve to do his best, every member should resolve to co-operate with the officers to the utmost of his ability.

A pull all together will surely win. It also seem to me that conditions are ripe for those who have never affiliated with the Society to do so now as the need is certainly apparent to every one and enough has already been accomplished to demonstrate beyond a doubt that with our forces united as we should be that every object of the Society should be accomplished in a short time, and that happiness and contentment would reign supreme in the land and the farmer come to be publicly recognized as the most important factor in the business world.

Now I want urge upon all non-members the great importance of giving their assistance that there may be no question of reaping quick rewards and that the benefit may come to all. The Society has surely already provided you with the means so there can be no question as to whether it will pay or as to whether it can be done. So come now and help to plan for the future. Give as the best of your observation while watching us in our struggle for Equity.

The locals should be busy collecting the 1908 dues of forward \$1.10 for each member due to S. B. Robertson, State Secretary, Calhoun, Ky. Twenty-five cents is to be kept in the local treasury and fifteen cents is to be sent to the county secretary. The total amount of annual dues is \$1.50. Let's all go to work and revive the old, and stir up individual interest. Get ready for the busy season that is coming on, when we will be absorbed in the production of brooms. W. E. Smith, Anty Secy. Treas. A. S. of E.

Monarch Grain Company.

C. Moore has bought the stock of D. Stowe in the Monarch Co., established by Mr. Stowe 10 years ago on the belt line. Associated with him are Dr. J. B. Marion and C. S. Jackson. The company handles hay and feed stuffs, doing both a wholesale and retail business.

Mr. Stowe will remain in charge until Mr. Moore winds up his business as city tax collector, when he will assume the management of the business which will be greatly enlarged. Mr. Stowe expects to move either to Texas or California.—Hopkinsville Kentuckian.

NIGHT RIDERS

Burn Tobacco Factory and Whip Two Men at Dycusburg.

Kuttawa, Ky., Feb. 4.—Three hundred and fifty masked night riders rode into Dycusburg, in Crittenden county, at 1 o'clock this morning, burned the tobacco factory of Bennett Brothers, the distillery of Bennett Brothers adjoining, shot up the home of William Groves, foreman of the tobacco factory, driving him from the building when he was captured and whipped almost to death.

Henry Bennett, a member of the firm of Bennett Brothers, was taken from his home, tied to a tree and severely whipped. He was left bound to the tree. Bennett Brothers operated an independent factory and have been buying tobacco from nonassociation growers, it is claimed.

When the mob called at Mr. Groves' house they requested him to come out. He declined to do so, and the shooting at once began. Mr. Groves was in a room with his wife and children, and as the bullets began to fly through the windows he deemed it best to come out in order to save the lives of his wife and children.

As he appeared in the porch members of the mob grabbed and bound him. Taking him into the street they whipped him and left him lying there. The mob then proceeded to the home of Henry Bennett and called to him to come out. Hastily dressing, Mr. Bennett obeyed the command. He was then taken away tied to a tree and severely beaten.

The fire loss is estimated at \$10,000.

One hundred and fifty members of the mob rode through Eddyville at 4:10 o'clock this morning. They were supposed to have come from Trigg and Caldwell counties. The other members of the mob scattered in different directions and it is not known where they came from.

No attempt was made to molest any other property than that described. The night riders were all armed, and the citizens kept indoors, no resistance being made.

Visit Was Expected.

Paducah, Ky., Feb. 4.—Bennett Brothers owned an independent plant which is reported to have been heavily stocked with tobacco. The distillery was small, but contained several thousand gallons of whisky. The people of the little village did not venture out of their homes until after the night riders had gone. They had been expecting a visit, as Bennett Brothers had received threatening letters. At 12 o'clock about 200 hundred night riders passed through Eddyville and went in the direction of Dycusburg. An hour later the fire could be plainly seen at Eddyville, which is ten miles away. Dycusburg has a population of about 700, and is on the Cumberland river, thirty-two miles above Paducah.

Report of Rural Routes for January.

The rural routes are proving not only great conveniences to the Marion people and those on the routes, but great success in amount of business handled.

In January 1908 Route No. 1, Noble Hill carrier delivered 3397 packages, letters and papers, collected 529 pieces, sold \$11.88 worth of stamps.

Route No. 2, Wathen Bankin carrier delivered 2148 packages, letters and papers, collected 507 pieces, sold \$8.19 worth of stamps.

Route No. 3, R. L. Bibb carrier delivered 2840 packages, letters and papers, collected 678 pieces, sold \$8.24 worth of stamps.

Route No. 4, W. E. Minner carrier delivered 3139 packages, letters and papers, collected 864 pieces, sold \$18.50 worth of stamps.

Route No. 5, Roy Siseo carrier delivered 2422 packages, letters and papers, collected 551 pieces, sold \$10.95 worth of stamps.

W. B. White Dead.

Mr. W. B. White, after an illness of nearly a year, died Wednesday morning. He had been ill for quite a while, having a cancer of the stomach, which was the cause of untold suffering.

Mr. White was fifty-six years old and was a member of the Christain church and also a member of the W. O. W. Lodge of this city. He was an honest upright gentleman.

The funeral services will be held at the residence this (Thursday) afternoon at 2 o'clock, conducted by Revs. T. C. Carter and J. H. Butler. The interment at the new cemetery, the W. O. W. Lodge having charge of the services there.

Judge Koltinsky.

The friends of Herman Koltinsky are congratulating him on his appointment as City Judge to succeed Judge W. H. Walker, deceased. He has been advised of his appointment and will receive his commission from the Governor this week.

McConnell-Boyd.

Mr. John McConnell and Miss Annie Bell Boyd, popular young people of Shady Grove, were married at the home of Frank Boyd, Wednesday, January 29, 1908, at 2:30 o'clock, their pastor, R. A. LaRue officiating.

Many friends and neighbors gathered at the home of the bride's parents to witness the happy event. Immediately after the ceremony the crowd proceeded to the home of Mr. Hodge McConnell, where a feast of good things was spread. Feasting, music, cheerful laughter, delightful association of friends and neighbors, age and youth made the occasion a beautiful bouquet of fragrant flowers to carry with us through life.

The happy pair thus enter upon a doubly bright pathway of life, flowered by the best wishes of their host of friends. R. A. L.

A Private Vault.

Any person who has attended a funeral at the new cemetery on a rainy day can see the real need of a private vault for holding the remains of our loved ones above the ground until suitable weather for an interment, can be had. To put those we love under the sod is sad at best, but to feel that the water soaked ground will soon allow the grave to fill with water is heart rending to contemplate. If the grave can be filled with dry earth it will in a large measure prevent the water seeping in. A substantial vault of brick, stone or concrete to hold two or three bodies and with substantial fastenings would be only what is found in cities and what we should have here.

Farm For Sale.

150 acres, 19 in timber. Good frame dwelling of 8 rooms, well and cistern in the yard, good tobacco barn, stock barn and orchard; two sets of tenant houses, good indications of mineral. On the Fredonia and Dycusburg road, four miles west of Fredonia and two miles of the Livingston tank station. I. C. R. R. 31-4 T. W. BRASHER.

Layne & Leavel, the mule buyers will be in Marion next Monday, County Court day, to buy Mules and Horses, from 4 to 10 years old. Only sound, fat animals wanted.

KING CARLOS

And Crown Prince Luis Philippe Are Shot to Death at Libson.

pathy of a host of friends in this county, who remember him when pastor of the Shady Grove Circuit. No Minister ever drew around himself more friends than did Bro. Smithson during one year he spent in our midst.

One by one, the dear ones leave us, as the years roll by. Sister Smithson has found love, rest and home.

Ohio River Runs Oil.

With a breeze blowing from the Illinois shore it was a novel sight to see the oil on top of the water last week forced to the shore and in a sufficient body for the Hanger Hicks Construction Company to have a barrel of it taken up for a test as to its value which they used to a good advantage in oiling machinery.

The royal family was driving in an open carriage when a group of men, at the corner of Praza Do Commercio and Rua Do Arsenal, suddenly sprang toward the carriage and leveling their carbines which had been concealed upon them, fired mortally wounding the King and Crown Prince and slightly wounding the King's second son, Prince Manuel.

Queen Amelie, who arose in the carriage and tried to shield the Crown Prince, was unhurt. Immediately the police guard fired on the regicides, killing two of them.

Before any of the guards were aware of what had hapened the assassins leaped toward the carriage and instantly a fusilad of shot rang out.

In a moment all was terrible confusion, the King and Crown Prince being shot down without the slightest chance to save themselves. Police guards sprang upon the regicides the number of whom was somewhat uncertain, and killed two and captured four others.

One of these committed suicide after being placed in prison.

It is charged that one of the murderers was a Spaniard named Corado.

The bodies of the King and Crown Prince were removed from the Marine arsenal, in two closed carriages, to the royal palace, Paco Das Necessidades, the late residence of the King, escorted by the municipal guards, mounted.

Card of Thanks.

We desire to express to the relatives, friends and acquaintances of Mrs. Elvie Cochran, our heartfelt thanks for kind considerations shown and sympathy expressed during the trying days of her last illness and death.

Death's Harvest.

Mrs. Minnie Smithson, wife of the Rev. J. O. Smithson, formerly pastor of the Shady Grove Circuit, in this county, died Tuesday, January 28, 1908, at her home in Calhoun, Ky., after an illness of several weeks. Her remains were brought to Marion for enternment and were taken to the home of Judge Rochester Wednesday accompanied by her husband, J. O. O. Smithson, her sister, Mrs. Jones, of Kansas, a sister and two brothers of the husband and the Rev. Virgil Elgin.

The remains were laid to rest in the new cemetery Thursday morning by the side of her two infants who had preceded her.

Sister Smithson was forty-two years old and is survived by her husband and seven children. She was a devout member of the Methodist church, a sweet, tender and loving mother and a devoted wife. She was greatly beloved by a large circle of friends in this and Livingston county on account of her sweet disposition and lovable manners.

The Rev. Virgil Elgin, from Hartford, Ky., preached her funeral in the Methodist Church to a large congregation.

Of her father's family only one sister and brother survive her. Mrs. Jones, of Kansas, and a brother in Alaska.

The husband has the deepest sym-

pathy on account of the water being drawn out from under the ice each night. All persons are warned to not trespass on same.

THURSDAY, FEB. 6, 1908.

The most important measure before the present General Assembly, the one from which the greatest good would come to the State, if passed, is House Bill No. 140 making an appropriation for the State College and two Normal Schools.

Kentuckians are getting tired of being placed forty third in a descending scale of illiteracy. Why shouldn't our boys and girls have just as good chance in the race of life as the boys and girls of our sister states? Are they not just as bright naturally, just as handsome, just as womanly and manly? Haven't we just as good natural resources and environments as any? If these questions are answered in the affirmative, then, why submit to the humiliation of such illiteracy with all the crime and pauperism following its trail, when we have the opportunity by fostering the institutions already established, to furnish the state with a trained teaching force that will reach every village, hamlet and district school. The time has come when we must arouse from our lethargy, shake off the shackles of ignorance and take our place in the front ranks of the march towards progress and a higher and more righteous citizenship. It is true this will cost, but is it not infinitely better to spend our money for education, a preventive of crime and pauperism than to pay it for criminal prosecutions and the maintenance of almshouses. Our young men and women are ready and anxious to avail themselves of the opportunity, as is evidenced by their attendance at the state institutions with their poor facilities and equipments. Both of the State Normals are crowded with the brightest and best of Kentucky's young manhood and womanhood eager to better their conditions. The people should see to it that their legislators vote and give their influence to the passage of this measure which will lift from our beloved state the stigma of standing forty-third in the education. Kentucky has always stood first in every thing in which her people have taken a pride and desired to attain. Now, shall she in this which is

highest and best, any longer lag so far behind her sister states. State pride if nothing else should spur our solons to support heartily the appropriations asked. Thus giving our children the opportunity of as good advantages for an education as those of any other state in the union. Law after all is not made and enforced by the courts but by the citizenship which makes the courts. We all know how we

have been shamed by the lawlessness in Kentucky and all authorities on government agree that ignorance and lawlessness go hand in hand, that where one is found there is the other. Then is it to be wondered that Kentucky has feuds and violations of law, when no other state except one, North Carolina, has a greater percentage of illiteracy among its native white voters.

Our Kentucky Boy.

Unless he is greatly wronged he will be initiated in the practice of good manners, and made past-master of the gentle courtesies which facilitate the easy living together of well-bred people. To omit the boy's training in politeness is to handicap him seriously. When a mother insists that her son shall lift his hat to her, and to every other lady whom he meets; when she never condones a rudeness, but on the contrary, so drills the lad in les petit soins that their practice becomes automatic, she is endowing him with talents for advancements which will be in the usufruct of days to come accrue to his lasting benefit.

All through the early years the course is over smooth waters with few reefs and shoals. Occasionally in the nursery a little chubby hand reveals a wonderful artistic bent; the drawing in the copy-book, or the knack with scissors and paper, may safely be taken as serious indications of real talent, if not of budding genius. Sometimes a small boy is resourceful, masterful, has the apparent quick decisiveness of the future commander of men. Now and then, the toddler just out of leading strings shows traits which mark the inventor, the discoveror of new secrets, and the modern magician who will apply them to practical needs.

But there are always a vast majority of people who belong to the rank and file; their destiny is to be inconspicuous, and the essential in their education is that they shall be faithful in whatever they undertake. They have no peremptory bent in any direction. Opposed to these are the few whom Nature and inheritance have destined for a definite line. If they are of extraordinary endowment they may manifest it as they reach their teens, and it will be the truest kindness in those who have their training in hand to accommodate themselves to the individual. The square peg in the round hole never fits comfortably.

For instance, it may easily be a

father's desire that his son shall have business adaptation and step into a position of advantage. By years of honorable toil the father may have built his business, strengthening and broadening it by discreet management. Here it is, the rough pioneer work done, princely opening for any fortunate young man, and the parent anticipates eagerly his son's maturity.—Ex.

A Conversation Party.

Unless the hostess falls back on dancing or cards, she is often at her wit's end to know just what to do to amuse her guests, especially if the majority of them are strangers to one another. The first hour is usually dreaded, when a penalty of silence seems to be imposed on every one, and the fear of "breaking the ice" is indeed a most difficult thing. One of the best things for this purpose is a conversation party. Have attractive little programs made, either your monogram or that of your honor guests, if you have one, with a little water-color or pen-and-ink sketch gracing the cover. Within the folder on the other side, if it is a straight card, have as many numbers as you desire conversations. Opposite each number have written a subject for conversation. Distribute your programs among your guests, and have the men engage certain young women for conversations, just as they would engage partners for a dance. After every one's card is completely filled the hostess rings a bell. The two who are to converse are permitted to go where they wish to carry on their conversation. At the end of a certain period, usually from five to ten minutes, the hostess again rings her bell, when the men leave their partners and hunt those for the next subject to be discussed. In this way every one gets an opportunity to talk with every one else. It is often the case that the prescribed subject is never even thought of; but if the guests find something of more mutual interest to each other, so much the better.—In The Circle for February.

NIGHT RIDERS WHIP HOPKINS COUNTY MAN

Hopkinsville, Ky., Jan. 29.—R. H. Rogers of the Era vicinity, this county, was visited last night by a party of about seventy-five night-riders. He was called from the house and severely whipped with buggy whips.

Mr. Rogers is a member of the association, but is alleged to have sold his tobacco outside the organization. He had received a warning, not to do so, the warning being coupled with threat. Several shots were fired into his house and all the telephone wires were cut.—Ex.

How She Was Saved When Bitten by a Large Snake.

How few people there are who are not afraid of snakes. Not long ago a harmless little garter snake fell on the wheel of an automobile which was being driven by a woman. The woman promptly fainted and the car, left to its own resources, ran into a stone wall and caused a serious accident.

The bite of a poisonous snake needs prompt attention. Mrs. K. M. Fishel, Route No. 1, Box 40, Dillsburg, Pa., tells how she saved her life when bitten by a large snake. On August 20, 1906, I was bitten on the hand twice by a large copperhead snake. Being a distance from any medical aid, as a last resort I used Sloan's Liniment, and to my astonishment found it killed all pain and was the means of saving my life. I am the mother of four children and am never without your Liniment.

Miss Vienna Roberts left here
Thursday night for Anderson, Ind.
On her trip she will go through
Evansville, Indianapolis and several
other important cities of that great
Northern state.

Uncle Jeff Burgess is able to be
out again after several days illness.

Fred Howerton, a prominent young
farmer of Repton, spent last Wednes-
day in our town on business.

J. A. Morgan, our leading gro-
ceryman, is talking of leaving here
and locating at Repton, where he
intends to put in a large stock of
different lines.

Geo. Samuels, one of Repton's
leading young men, was here last
week.

Lee Morgan has just received a
letter from his brother, Daniel Morgan,
who left here a few weeks ago
for Carmi, Ill., where he enlisted in
the United States army. He is now
stationed on the sea coast near San
Francisco, Cal. His branch of
service is coast artillery.

Pat Underwood, the notorious
horse jockey of Crittenden county,
was here Saturday. He said the
wind was blowing too hard to have
his plugs out on the road that day.

Members of the Odd Fellows
Lodge from several different points
of Webster county met here last
Tuesday evening for the purpose of
organizing an Odd Fellows Lodge

I should like to go back to the little old town
Where she lived in the long, long ago.
When I thought that her eyes were the loveliest brown
And her brow was far whiter than snow.
I should like to go back to the tree shaded lane
Where we strolled in the hush of the eve,
With my heart throbbing swiftly a drumming refrain
While her hand rested light on my sleeve.
I should like to go back to the banks of the brook
Where she told me it never could be—
To go back to the shade of the vine bowered nook
Where I pleaded my suit on my knee.
I should like to go back just to see her once more—
It would give me great joy to do that;
Since she married my rival who worked in the store
She has waxed most excessively fat.

And in manner is wondrously meek.
And they whisper at times he is viciously mauled
If he pricks up his courage to speak.

FINANCING A SPREE

By J. C. PLUMMER

(Copyright, by Daily Story Pub. Co.)

When the brig Glenelg received orders at Barbadoes to proceed to Aquin, Hayti, to load for Havre the merits of Aquin, as a port, were canvassed in the forecastle. A sailor is a living gazetteer of the world and if he hasn't been to a port he has always known some one who has. The reports concerning Aquin were not favorable.

It was described as a town inhabited by niggers, tarantulas, centipedes and scorpions, devoid of amusements and depressing to the soul of the average seaman. Doubtless if Hades was dispassionately described it would be found to have one good feature and Aquin possessed one—the cheapness of white rum. An exchequer must be depleted, indeed, that could not afford a sufficiency of this spirit for a term of blissful intoxication.

We reached Aquin, which lies at the apex of a triangular bay, and dropping anchor made ready to take on a cargo of logwood. Logwood and yellow fever are the chief exports of the town, many vessels carrying away an assortment of both products.

Our skipper was a flint-cheeked Scotchman so mean that he wouldn't burn sidelights at sea to save oil, and while labor was dirt cheap, he put us to loading cargo while there was lots of necessary work wanting in the rigging.

The cargo came off in lighters, and one day we were notified that the next was a holiday and no wood could be sent out. Then Mike, a smooth-faced Irishman, the spokesman of the crew, demanded shore leave of the skipper. Capt. McDevitt suggested work in the rigging, but Mike convinced him that not a stroke of work would be done by the crew that day, and he grudgingly consented. On one point he was immovable; not a penny would he advance us. He knew that money meant a drunk, a fracas and consequent confinement in a calabozo from which we could only be redeemed on payment of fine, and while the Haytians might be behind the times in many things, they knew how to levy fines against a skipper who had to have his crew to put to sea. True, the fines would be charged up to us, but then Capt. McDevitt feared we might desert at Havre and leave a balance owing.

That night we held a ways and means committee in the forecastle and it was barren of results. Not only were we penniless but arringless. The whole crew, including the cook, could not raise money enough to buy a ha' penny tar.

Ned, the cockney, had had a counterfeit shilling which had been spurned with contumely by many vendors of spirits in many ports, but even this had been stolen from him at Barbadoes.

"What's the use of going ashore if we've no money?" growled Ned. Mike was beating a tattoo with a spoon on the tin dish which had contained our supper and said nothing.

"Might as well stay aboard this blooming brig," sighed another.

"Whist," said Mike, "be aisy. I'm beginning to see a hole in the clouds."

"What is it, Mike?" we clamored.

"We'll go ashore to-morrow," he answered, "and we'll thry an idee that's come to me. I've been twice to San Domingo and I know the ways of these naygers."

We went ashore early the following morning. The cook came with us to bring back the boat and had agreed to come for us in the evening. He had not been taken into our confidence that Mike had a plan in embryo and simply turned up what he could of a snub nose at the idea of a jaunt on land with no liquor.

We walked demurely up into the town, Mike in the lead. A war was in progress between Hayti and San Domingo and soldiers were omnipresent. And such soldiers. Their crazy quilt uniforms and obsolete guns, together with their evident wonderment at what we saw to laugh over, only made us laugh the more.

Mike could speak only a word or two of Spanish, but presently we found a negro who had been to Jamaica and from him Mike boldly demanded to see the commanding officer. After a good deal of palaver between the Jamaican and the sol-

ders we were escorted to a one-story white building which was the headquarters of the commandant.

We found therein a small man strapped to a large sword clothed in a miraculous uniform and with what he imagined was an expression of dignity on his face. Mike at once opened negotiations.

"Tell his royal highness," he said to the interpreter, "that we are English sailors visiting the town and have no money."

"E's no king," put in the cockney, in a whisper.

"Every man likes to be taken for a king," replied Mike.

"The general says you can go about your business," said the interpreter.

"I'd like to tell the nayger where he can go," growled Mike, then addressing the interpreter, "tell his majesty that I can show him how he can put some money in his pocket."

A faint spark of interest appeared to gleam in the eyes of the general. "The general says you can speak, but be quick about it," said the interpreter.

"Be quick, is it? The lousy spalpeen to talk that way to a descendant of Irish kings. Well, let him give us enough rum to get drunk on and thin he can put us in the calaboose and the old man on the

Whirled him around in a cross between an Irish Jig and a Reel.

brig'll pay whatever fines he lays, as he can't sail without us. Give us the rum and we'll make a sturdy and he can arrest us."

A smile broke out on the lips of the general. He called a soldier who fetched a bottle of rum.

"What," shouted Mike, "one bottle to four sailors. At home the parish prais'd ixipt more than that before supper at a wake. If we don't have the rum we can't get drunk, and if we don't get drunk he can't arrest us for we'll walk about as innocent as chickens on a dung heap."

Again the general called a soldier and we were given each a vessel containing about a quart of rum. Then we were abruptly ushered out of doors.

"What's the program, now?" I asked of Mike.

"We'll sip the rum aisy like till the boat comes for us and thin we'll make a night of it aboard. We'll give him no chance to arrest us."

Alas, for our resolution to swindle the general. We had not had a drink since we left Barbadoes and we were droughty vessels. Our sips became more frequent and of greater dimensions. A dapper officer in a uniform which would have made a dead bull frantic with rage picked his way across the plaza. Mike seized him about the waist and whirled him around in a cross between an Irish Jig and a reel. The infuriated officer screamed to his subordinates and in a moment there was a real shindy going on. For a while we tumbled Haytian soldiers down like ninepins, but numbers prevailed, and bound hand and foot, we were placed in the calabozo.

What a night we passed. There were four other prisoners, all negroes, and there were several thousand species of vermin. They had taken away our rum and we couldn't sleep.

A plate of frijoles was handed each of us for breakfast and we broke up the monotony of the day by alternately swearing at Mike, the general and Hayti. Another night with its horrors passed and then the door opened and we were released.

When we reached London from Hayti the skipper paid us off less 15 shillings deducted for fines paid the general. We growled, but Mike waved us off scornfully.

"If a gentleman won't pay for his diversions," he said, "he's no gentleman at all, at all."

Whirled him around in a cross between an Irish Jig and a Reel.

brig'll pay whatever fines he lays, as he can't sail without us. Give us the rum and we'll make a sturdy and he can arrest us."

A smile broke out on the lips of the general. He called a soldier who fetched a bottle of rum.

"What," shouted Mike, "one bottle to four sailors. At home the parish priest'd expect more than that before supper at a wake. If we don't have the rum we can't get drunk, and if we don't get drunk he can't arrest us for we'll walk about as innocent as chickens on a dung heap."

Again the general called a soldier and we were given each a vessel containing about a quart of rum. Then we were abruptly ushered out of doors.

"What's the program, now?" I asked of Mike.

"We'll sip the rum aisy till the boat comes for us and then we'll make a night of it aboard. We'll give him no chance to arrest us."

Alas, for our resolution to swindle the general. We had not had a drink since we left Barbadoes and we were droughty vessels. Our sips became more frequent and of greater dimensions. A dapper officer in a uniform which would have made a dead bull frantic with rage picked his way across the plaza. Mike seized him about the waist and whirled him around in a cross between an Irish jig and a reel. The infuriated officer screamed to his subordinates and in a moment there was a real shindy going on. For a while we tumbled Haytian soldiers down like ninepins, but numbers prevailed, and bound hand and foot, we were placed in the calaboose.

What a night we passed. There were four other prisoners, all negroes, and there were several thousand species of vermin. They had taken away our rum and we couldn't sleep.

A plate of frijoles was handed each of us for breakfast and we broke up the monotony of the day by alternately swearing at Mike, the general and Hayti. Another night with its horrors passed and then the door opened and we were released.

When we reached London from Havre the skipper paid us off less 15 shillings deducted for fines paid the general. We growled, but Mike waved us off scornfully.

"If a gentleman won't pay for his diversions," he said, "he's no gentleman at all, at all."

Me an' Ma—Pie Makers.

I soon like to join the boys
An' play out in the street,
To make mud-pies an' things like that,
It really is a treat
Be once a week I stay at home
An' pass all playing by;
Give me an' Ma just gets to work
An' fill the house with pie.
We help to help Ma make those pies,
She says I help her lots,
She arranges the fruit an' pans,
An' fix the stewing pots.
Sometimes when I take a peach
An' eat it on the sly,
It just like I was getting paid
For helping Ma make pie.

My Ma just makes the grandest pies,
From cocoanut to plum.
An' Pa just smacks his lips an' says:
"That's good; that's fine, yum-yum."

And then you bet, I tell my Pa
(I'm not the least bit shy)
That he can thank me also, 'cause
I helped to make that pie.

The finest Coffee Substitute ever made, has recently been produced by Dr. Shoop of Racine, Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute" says the doctor. "Health Coffee" is really the closest Coffee Imitation ever yet produced. Not a grain of real coffee in it either. Health Coffee Imitation is made from pure toasted cereals or grains, with malt, nuts, etc. Really it would fool an expert--we he to unknowingly drink it for coffee. Sold by Morris & Yates.

Change Your Cereal.

As to cereals for a first course, while there are many excellent modern cereals with which every one is familiar, it is well to mention also the old staples, says the February Delineator: oatmeal cooked all night in a fireless cooker or on the back of the range; boiled rice and raisins, or corn-meal mush and raisins; hominy and samp, and plain but nourishing cracked wheat.

To vary the cereal course, once a week have the main dish first, and have the corn-meal mush fried and served with syrup after it. Or, have round cakes of boiled rice or farina with scraped maple sugar or with syrup. And once in a while, give the family a treat of waffles or crackers.

A Valentine's-Day Supper.

A dainty supper plays no small part in the success of a St. Valentine's-Day Party.

If it is a cold night, suggests the Delineator, serve something hot, like fried oysters or scrambled eggs mixed with chopped tomatoes and shredded green peppers. Have sandwiches of breakfast bacon, crisp and thin, mixed with watercress; add ice cream if you wish, but it is not necessary, and if you live in a small town it is expensive. Have a big bowl of nuts at one end of the table and stick candy at the other. Serve hot coffee or chocolate with the oysters or eggs, and orangeade if you wish a cool drink.

DANGER OF CATARRH.

Unless Properly Treated with Hyomei, Becomes Serious.

Catarrhal troubles are far more dangerous than they seem at first thought.

If you have catarrh, there is an irritated state of the mucous membrane and weakened tissues which afford an ideal lodgment and culture medium for disease germs, especially those of consumption.

You should get cured as quickly as possible before any dangerous germs that you may breathe lodge on the diseased tissue and work destruction in the throat and lungs.

The easiest, simplest, quickest, surest and cheapest way to cure catarrh is by the direct method, breathing Hyomei. This wonderful medicated air treatment does not drug and derange the stomach, but is breathed in, directly following and destroying all disease germs that may have been inhaled.

The unusual way in which Hyomei is sold by Haynes & Taylor is the best evidence of their confidence in the treatment and should dispel all doubt as to its curative properties. Haynes & Taylor agree to refund the purchase price to anyone whom Hyomei fails to benefit, and you do not risk a cent in testing its healing virtues. A complete outfit costs but \$1.00 if it helps you, not a cent if it does not do all that is claimed for it.

even members of the Society, met in a bed-room of the same hotel where in the Convention was holding its meeting and went through the process of electing a bolting set of National officers. Mr. Everitt being selected as Vice-President. This so-called list of National officers has appeared in every issue of the Up-To-Date Farming since the National Meeting, immediately under the regular list of elected officers. A systematic warfare upon the new officers and the Convention itself has been pursued by Mr. Everitt in his paper ever since the Convention adjourned. He has sought to alienate the membership by denouncing the Convention as "revolutionary," a "packed Convention," etc. No statement was ever made at more variance with the truth. The Convention took no revolutionary course. It did not depart from those principles of Equity, and it is not the intention of the new officers to depart from those principles. It is the intention of the new officers to maintain this Society, to push the good work already begun to the relief of the toiling millions of farmers from unjust discriminations and the pauper prices which have been prevailing for their products.

We have no personal warfare to wage on Mr. Everitt or anyone who sides with him. He is merely a man. No notice will be taken by us of what he is doing or saying, except as it affects the standing of the new officers with the organization throughout the country.

The conduct of Mr. Everitt the night the convention adjourned in organizing a bolting set of officers rendered it impossible for the new Board of Directors to make arrangements with him to continue his paper as the official organ. It was necessary for us to have such organ, but we have been hampered through lack of necessary funds which was needed to start such a paper from the ground. However, the new paper, the Equity Farm Journal has already made its appearance, and will be placed in the hands of every member of the Order regularly with the greatest possible speed.

If this Society is to continue and is to be made the power for good which is within the range of possibilities, it is necessary that every member stand by the new administration, which is the only National Organization which the Society now has.

Trusting that we may have your hearty co-operation and wh high hopes for the future we are

Very truly yours,
